

Mohamed Mahmoud Abo Al Magd

Full Stack JavaScript Developer (MERN)

✉ abo.al.magd.404@gmail.com ☎ +201095554022 📍 Badr, Al buhairah, EGY

📄 SUMMARY

Aspiring Full Stack Developer and Computer Information Technology student with a strong foundation in the MERN stack and Next.js. Focused on writing clean, modular, and maintainable code from the start. I take pride in understanding every detail of my projects, from backend logic to responsive UI. Proven leadership as a Graduation Project Team Lead, dedicated to problem-solving and effective team coordination. Currently building scalable web applications like "MATJARNA" and "SARAH," with a commitment to high-quality development and continuous learning

🎓 EDUCATION

Thebes Higher Institute of Management & Information Technology 10/2023 – Present
Bachelor's Of Computer Science Cairo, Egypt

- **Expected Graduation:** June 2027
- **Relevant Coursework:** Data Structures, Database Management Systems (DBMS), Software Engineering, and Object-Oriented Programming (OOP).
- **Academic Standing:** Focusing on Advanced Web Development and System Architecture.

🧠 SKILLS

- | | | |
|------------------------|--------------|------------------|
| • HTML5 | • CSS3 | • SCSS / SASS |
| • Tailwind CSS | • Bootstrap | • JavaScript |
| • TypeScript | • jQuery | • React.js |
| • Redux | • Next.js | • Jest |
| • Node.js | • Express.js | • RESTful APIs |
| • Authentication (JWT) | • MySQL | • Sequelize |
| • MongoDB | • Mongoose | • Git |
| • GitHub | • Postman | • Vercel |
| • NPM | • Yarn | • ChromeDevTools |

PROJECTS

MATJARNA — Online Electronics Store

10/2025 – 12/2025

Front-end Developer (Next.js 16 & React 19)

- Developed a modern, high-performance electronics store using **Next.js 16** and **React 19**, focusing on a seamless and responsive user experience.
- Engineered a global state management system using **React Context API** to handle persistent shopping cart logic and real-time UI synchronization.
- Implemented secure **Client-side Route Protection** and authentication flows using **Next.js Middleware**.
- Integrated external **RESTful APIs** by configuring custom proxies in `next.config.ts` for dynamic data fetching and category browsing.
- Designed an interactive UI using **Tailwind CSS 4** and **Lucide-React**, ensuring full mobile responsiveness and accessibility best practices.

Personal Portfolio

09/2025 – 10/2025

Front-End Development

- Developed a high-performance, responsive portfolio using **Next.js 16 (App Router)** and **React 19** to showcase projects and technical skills.
- Engineered a modular architecture with a dedicated **Serverless API route** using **Nodemailer** for secure, automated contact form processing.
- Implemented advanced UI components and micro-animations using **Framer Motion** and **Tailwind CSS 4** for an interactive user experience.
- Optimized for **SEO** and performance, featuring custom themes, dynamic backgrounds, and full mobile responsiveness.
- Deployed and managed the application lifecycle on **Vercel**, ensuring continuous integration and fast delivery.

SARAHA — Full Stack Anonymous Messaging Platform

01/2026 – 03/2026

Full Stack Development (Next.js & Node.js)

- Developed a full-stack anonymous messaging platform using **Next.js 16 (App Router)** for the frontend and **Node.js/Express 5** for the backend.
- Engineered a secure authentication system featuring **JWT-based sessions**, **Google OAuth integration**, and password hashing with **bcrypt**.
- Built a reactive and modern UI using **Tailwind CSS 4** and **Framer Motion**, ensuring a seamless user experience with fluid animations.
- Implemented high-performance backend logic using **Redis** for API rate limiting and **Joi** for strict request validation.
- Integrated automated email notifications via **Nodemailer** and managed secure data persistence with **MongoDB** and **Mongoose**.
- Deployed and optimized the full-stack lifecycle on **Vercel**, maintaining a modular architecture for both frontend and backend layers.

Front-end Development With React.js & Next.js

01/2025 – 10/2025

Self-Directed Learning / Independent Study

Focus: Mastering modern Front-end technologies including React.js and Next.js.

Key Skills: Building responsive UIs with HTML5, CSS3, and Tailwind CSS.

State Management: Implementing client-side logic and state management (Context API/Redux).

Project-Based: Applied learning by developing multiple projects, including a E-commerce platform (MATJARNA).

Back-end Development With Node.js

11/2025 – 06/2026

Route Academy

Cairo, Egypt

- **Focus:** Intensive training on server-side logic using **Node.js** and **Express.js**.
- **Key Topics:** Building RESTful APIs, Database modeling with **MongoDB** & **Mongoose**, and Authentication using **JWT**.
- **Clean Code:** Implementing the **MVC (Model-View-Controller)** pattern and modular folder structures.
